NYSEG Manufacturing Accelerator Program (MAP) Grant

Alliance for Manufacturing and Technology

The NYSEG MAP grant provides reimbursement funds to eligible electric customers for qualified manufacturing productivity improvement and growth projects. Funding is reimbursement-based, and projects must be approved before work begins.

Productivity

40% or up to $15,000 max. Reimbursement

Lean Six Sigma, manufacturing assistance, and projects that eliminate waste and increase productivity on the shop floor or in the office.

Ex: Project is $20,000, reimbursement is $8,000

Growth

50% or up to $15,000 max. Reimbursement

Sales, marketing, new product development, and other growth-targeted activities that increase utilization of plant capacity.

Ex: Project is $30,000, reimbursement is $15,000

Productivity + Growth

60% or up to $40,000 max. Reimbursement

Projects that combine capacity-building improvements with top-line growth activities to fill that added capacity.

Ex: Project is $75,000, reimbursement is $40,000

Who is eligible?

- NYSEG/RG&E or National Grid electric customers.
- Manufacturer with NAICS code 31, 32, or 33.
- Able to commit adequate internal time and resources to complete a successful project within one year.

Potential project categories

- Management
- Marketing
- Finance
- Information technology
- Product Development
- CMMC
- Manufacturing / Engineering
- Quality management systems, UL/CE marking
- Export / ITAR compliance
- Process Improvement
- Plant layout & redesign

This is not meant to be an exhaustive list. Contact us at info@amt-mep.org or 607-774-0022 if you have a project in mind and we can advise you.

Summary of Application process

- AMT will prepare the application package using the project cntract, it will include a two-page application with measurable impact, new vendor form, business classification form, commitment letter, and a request for an electric bill, W9, and company logo file.
- Manufacturer will complete forms, sign the commitment letter, and provide other requested information.
- AMT will submit the application package to NYSEG for approval. Estimated approval time is 4-6 weeks. The project cannot begin until approval is received unless the manufacturer is willing to proceed at risk.

Summary of Reimbursement process

- At project close-out, AMT will prepare a close-out report, invoice summary, cancelled checks, and draft invoice to NYSEG.
- Manufacturer will review and sign off on close-out reports and invoice. AMT will submit the reimbursement package. Reimbursement takes approximately 5 months. A company may apply for another project after reimbursement paperwork has been submitted.
